Office Action Summary

Art Unit: 1711

1. Two IDS's (Paper Nos. 7 and 10) and an amendment (Paper No. 9) have been filed on January 8, 2002; April 18, 2002 and April 8, 2002 respectively.
2. Claims under examination still are 1, 2 and 9-57.
3. Applicants' confirmation of election of group 2, claims 1, 2 and 9-57 with traverse is noted.
4. Submitted abstract is acceptable. It is however noted that contrary to what the applicants state (on page 38 of above Paper No. 9) there is no page 71 in the specification

- ✓ 5. The amendment filed April 8, 2002 (Paper No. 9) is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material, which is not supported by the original disclosure, is as follows:

New paragraph at page 14, line 4. *(this is elaborated in lines 3-7 of page 4 of OA, paper 13)*

Applicant is required to cancel the new matter in the reply to this Office Action.

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 1, 9, 15, 16, 18, 24-26, 33, 37-41, 46-48, 55 and 57 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that

the inventor(s), at the time the application was filed, had possession of the claimed invention.

Introduction of –finely divided solid – and water soluble – in claims 1, 9 etc. has been shown by applicants to have support from the specification; but (a) changing “cyclopentene” to – ^{cl}cyclopentane – in claim 1, (b) introduction of a proviso at end of step (i) in a claim 9, (c) introduction of – or CH₂CO₂H – etc. in claim 15 and (d) similar other changes in remaining claims are presented without pointing the support thereof.

Rejection of claims 15, 16, 24, -27, 29, 32, 46-49, 51, 54 and 55 under 35 USC 112, second paragraph (see item 6, prior Office action, Paper No. 6) is maintained since the applicants' arguments against the said rejection (on page 25 of Paper No. 9) are not persuasive.

May 28, 2003

Claim 55 as amended recites “a molecular weight” but fails to specify which type of molecular weight is envisioned.

8. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

9. Claims 9-57 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kataoka et al (JP 5,813,903) in view of Fujita et al (JP 6,236,302)

(See English translations).

This rejection is incorporated here by reference from prior Office action, Paper No. 6.

10. Applicant's arguments filed April 8, 2002 (Paper No. 9) have been fully considered but they are not persuasive.

Art Unit: 1711

On page 28 (of Paper No. 9), the applicants state that "As the Examiner has noted, Kataoka does not mention... agrochemical principles". This statement is not true since the examiner has noted that "Kataoka does not mention an insoluble material that is useful for agricultural purposes".

Applicants' other argument (page 29) that there is no motivation to combine references is not persuasive because such motivation is presented (see page 6) in prior Office action (Paper No. 6).

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
